- 
- 

KEY COLLABORATORS

Great Eastern –
Insurance and risk
management solutions

UNeedWill –
Professional will and
estate planning
services

MY ROLE

1

Responsible for developing the company website from scratch

2

Solely built an internal-use mobile app for employees

3

Handled both front-end and back-end development

4

Worked independently on all technical aspects of the projects

CHALLENGES FACED:

- Faced many coding errors and bugs during development
- Limited experience with some tools and frameworks (e.g., Flutter, Firebase)
- Needed to build both website and app from scratch alone

SOLUTIONS APPLIED:

- Searched solutions online through forums and developer communities (e.g., Stack Overflow)
 - Watched tutorials on YouTube to understand new concepts and fix issues
 - Tried and tested multiple approaches until finding the best solution
 - Developed problem-solving and self-learning skills through hands-on practice
- 

INSIGHTS GAINED:

- Real-world experience in web and app development
- Better understanding of how IT supports business needs
- Importance of writing clean, maintainable code

SKILLS DEVELOPED:

- Technical: HTML, CSS, JavaScript, Flutter, Firebase
 - Soft skills: Communication, time management, problem-solving
 - Improved ability to work independently and take initiative
- 

LESSONS LEARNED

Learning never stops – self-learning is essential in IT

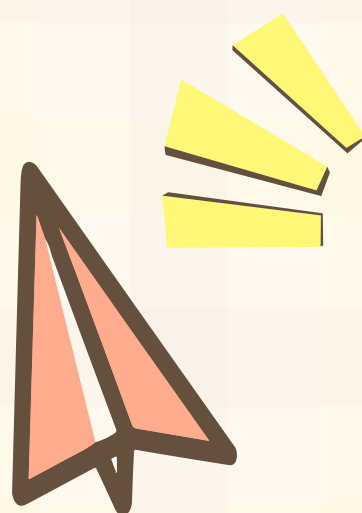

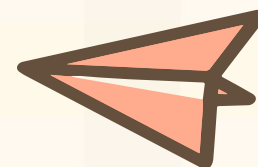

Patience and persistence are key when solving coding problems

Good communication helps avoid misunderstandings and speeds up teamwork

THANK YOU
